Sprint Retrospective

Actions to stop doing

- 1- Updating Ice scrum regularly while working only not daily.

Actions to start doing

- 1- Try to keep the burndown chart under the median line.
- 2- Learn how to work under pressure.
- 3- Holding more meetings.
- 4- Updating Ice scrum daily.
- 5- While planning the sprint, we should take in consideration our other obligations with the other courses and how much are we occupied in that period of time.

Actions to keep doing

- 1- Planning what to work on before the start of each lab.
- 2- Work distribution between team members.
- 3- Respecting deadlines and submitting work on time.
- 4- Holding meetings at 12:00 pm instead of 7:00 am.
- 5- Scheduling meetings with TeamViewer since we don't have enough time to meet face-to-face at the university.
- 6- Breakdown the task to smaller tasks that can be done in 1 hour.
- 7- Write more specific tasks.
- 8- Use previous sprints estimations and the actual time spent as a reference in the next sprints.
